

## PROFILE

Hi! I'm a web developer with a strong foundation in front-end and back-end development. I specialize in building user-friendly websites and web applications using technologies like HTML, CSS, JavaScript, PHP, and MySQL. With a solid understanding of UI/UX principles and experience in working with MVC architecture. I enjoy solving problems, learning new tools, and continuously improving my craft. When I'm not coding, I like to explore new tech trends, or refine personal projects that push my skills further. I'm currently open to new opportunities where I can contribute, learn, and grow as a developer.

# ILYES MEKBAL

web developer  
Bab Ezzouar Algiers

## EDUCATION

**USTHB - biology**  
2018 - 2021

**CACI FORMATION**  
2022 - 2025  
Senior Technician Web and Multimedia Developer

## EXPERIENCE

**SONATRACH Production Division , INTERN**  
2024-2025

I contributed to the development of a web application for managing "garantie de soumission" (bid guarantees). My tasks included assisting with front-end and back-end development, database design, and testing. This experience strengthened my skills in web development and working within a professional team environment.

**COSIDER , Freelancer**  
2025

Developed an employee management system to handle staff records, roles, and administrative tasks efficiently.
